5. Fire Fighting Measures	
Suitable Extinguishing Media	Use dry chemical, CO ₂ , water spray (FOG) or foam
Unsuitable Extinguishing Media	Avoid solid water stream as it may scatter and spread fire.
Specific Hazards Arising from Chemical	Elevated temperatures can lead to the formation of irritating vapors. Decomposing products may include the following materials: Carbon dioxide and Carbon monoxide.
Protective Equipment and Precautions for Firefighters	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

6. Accidental Release Measures	
Personal Precautions	Put on appropriate personal protective equipment.
Environmental Precautions	Prevent product from entering drains. Prevent entry into waterways, sewers, basements or confined areas.
Methods for Containment	Stop leak if without risk.
Methods for Cleanup	Cover liquid spill with sand, earth or other noncombustible absorbent material. Cover powder spill with plastic sheet or tarp to minimize spreading. Pick up and transfer to properly labeled container

7. Handling and Storage	
Handling Procedures	Eating, drinking, and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist.
Shipping and Storing Procedures	Keep container tightly closed in a dry place. Keep away from heat. Protect from light. Keep in properly labeled containers. Keep out of the reach of children.
Incompatibilities:	Oxidizing Agents

8. Exposure Controls / Personal Protection	
Component Exposure Limits*	When mists/aerosols can occur the following are recommended: 5 mg/m ³ - ACGIH TLV (inhalable fraction), 5 mg/m ³ - OSHA PEL.

8. Exposure Controls / Personal Protection	
*Product has 0 kPa pressure at 68°F and is not expected to present any inhalation hazard at ambient conditions. Caution should be taken to prevent aerosolization or misting of this product. Oil mist, if generated, is considered hazardous according to the OSHA Hazard Communication Standard.	
Engineering Controls	Material should be handled in enclosed vessels and equipment only if aerosolized and/or misted. Use only in adequate ventilation if this occurs. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.
Eye/Face Protection	Safety glasses and Face Shield
Skin Protection	Normal work gloves are appropriate
Respiratory Protection	No special requirements under ordinary conditions of use and with adequate ventilation.
General Hygiene	Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing.
